**Subject:** RE: DEA visit at FDC  
**Date:** Tuesday, September 25, 2018 2:39:40 PM

---

Hi All,

DEA conducted an inspection for export and distributor registrations associated with the FDC from September 20th – 25th 2018.

The three areas inspected include: Accountability (inventory counts), Record keeping, and Security.

All three of the inspected areas were found to be adequate / passed.

As final follow up, the Controlled Substance Compliance Manager will send a letter to DEA notifying DEA of the updated Vault 2 layout.

The following suggestions were given as a result of this inspection:

- Consider electronic logging of 222 forms
- Ensure that 161 form Concerta/Neucon is named consistently in all required fields

Best Regards,  
Stephanie, Jose and George
